**NON SURGICAL FACE LIFT**

If you want to look younger, tighten your skin and smooth your facial contours through non-operative and non-invasive ways this is the treatment for you.

The RF Non-Surgical Face Lift is a non-invasive and a pain-free treatment that is completely safe for your skin.

The radio frequency increases blood flow, heats and shrinks fibrous tissues and stimulates collagen production.

Collagen production can continue for up to 6 months post treatment course and results can last up to 2 years.

Also great results seen when treating post baby tummy and loose skin left behind from weight loss.

We have both Bi Polar RF technology and Fractional RF technology depending on your skin needs.
